Introduction .....	5
--------------------	---

## **Concept of Decimals, Place Value, Comparing, Rounding**

Tenths 1 .....	6
Tenths 2 .....	7
Hundredths 1 .....	8
Hundredths 2 .....	9
Tenths and Hundredths .....	10
Thousands .....	11
Decimal Place Value 1 .....	12
Decimal Place Value 2 .....	13
Comparing Decimals 1 .....	14
Comparing Decimals 2 .....	15
Rounding Decimals 1 .....	16
Rounding Decimals 2 .....	17

## **Add/Subtract**

Adding Tenths .....	18
Add Hundredths .....	19
Add and Subtract Decimals 1 .....	20
Add and Subtract Decimals 2 .....	21
Add and Subtract Decimals 3 .....	22

## **Multiply/Divide**

Multiply Tenths .....	23
Multiply Decimals by Decimals .....	24
Multiply Decimals 1 .....	25
Multiply Decimals 2 .....	26
Divide Tenths .....	27
Divide Decimals by Whole Numbers .....	28
Divide Decimals .....	29
Divide/Multiply .....	30
Multiply and Divide by 10, 100, 100 .....	31
Multiply and Divide by Powers of Tens .....	32
Long Division With Decimals .....	33
Divide Decimals by Decimals 1 .....	34
Divide Decimals by Decimals 2 .....	35
Divide Decimals by Decimals 3 .....	36

## **Fractions to Decimals and Vice Versa**

Fractions and Decimals 1 .....	37
Fractions and Decimals 2 .....	38
Repeating Decimals .....	39
Equivalent Decimals .....	40
Fractions Decimals 3 .....	41

## **Word Problems and Review Sheets**

Using Decimal Numbers .....	42
Decimals Review 1 .....	43
Decimals Review 2 .....	44
Word Problems 1 .....	45
Word Problems 2 .....	46
Word Problems 3 .....	47
Decimal Roundup .....	48
Decimal Problems .....	49

# Introduction

*Math Mammoth Decimals Worksheets Collection* has been compiled by taking all decimals-related worksheets from Math Mammoth Grade 3, Grade 4, Grade 5, Grade 6 and Grade 7 worksheets collections, here in one handy package for those who would need them. Most of the sheets here come from the 5th and 6th grade collections, and only a very few from grade 3.

The grade-level worksheets packages were originally created for and in collaboration with SpiderSmart, Inc. tutoring company.

These sheets span about four grade levels; however here they are organized by topic. In each topic, first come the easiest sheets and then the more difficult ones. For example, in the word problems section the first sheet fits 4th grade and the last one 7th grade.

The teacher can thus choose a sheet of right difficulty level, or even assign some students easier sheets and some students more challenging ones, on the same topic.

These worksheets do not contain any explanations of the topics, but are just collections of varying problems, best suiting teachers and tutors who can explain the mathematics, and just need problems to assign to students.

The decimal worksheets cover concept of decimal, place value, comparing, rounding, adding and subtracting, multiplying and dividing decimals, converting fractions to decimals and vice versa, and word problems.

The sheets do not just contain calculation problems, but a great variety of problems that test understanding of concepts, including word problems. Hopefully the problems will fit your needs.

*I wish you success with math teaching!*

*Maria Miller, the author*
