

# Simplifying Fractions 1

1. Draw a picture and simplify the fractions.

<p>Merge each two parts.</p>  <p>a. <math>\frac{2}{4} = \underline{\quad}</math></p>	<p>Merge each two parts.</p>  <p>b. <math>\frac{2}{8} = \underline{\quad}</math></p>	<p>Merge each four parts.</p>  <p>c. <math>\frac{4}{8} = \underline{\quad}</math></p>
<p>Merge each two parts.</p>  <p>d. <math>\frac{4}{10} = \frac{2}{\quad}</math></p>	<p>Merge each two parts.</p>  <p>e. <math>\frac{4}{6} = \frac{\quad}{3}</math></p>	<p>Merge each two parts.</p>  <p>f. <math>\frac{6}{8} = \frac{3}{\quad}</math></p>
<p>Merge each two parts.</p>  <p>g. <math>\frac{8}{10} = \frac{4}{\quad}</math></p>	<p>Merge each five parts.</p>  <p>h. <math>\frac{5}{10} = \frac{\quad}{2}</math></p>	<p>Merge each three parts.</p>  <p>i. <math>\frac{3}{6} = \frac{1}{\quad}</math></p>
<p>Merge each two parts.</p>  <p>j. <math>\frac{2}{6} = \underline{\quad}</math></p>	<p>Merge each four parts.</p>  <p>k. <math>\underline{\quad} = \underline{\quad}</math></p>	<p>Merge each three parts.</p>  <p>l. <math>\underline{\quad} = \underline{\quad}</math></p>
<p>Merge each six parts.</p>  <p>m. <math>\underline{\quad} = \underline{\quad}</math></p>	<p>Merge each seven parts.</p>  <p>n. <math>\underline{\quad} = \underline{\quad}</math></p>	<p>Merge each four parts.</p>  <p>o. <math>\underline{\quad} = \underline{\quad}</math></p>
