
Multiplication table of 8

The only new facts to study from the table of eight are:

$$8 \times 8 = 64 \quad 12 \times 8 = 96$$

Fill in the **MULTIPLICATION TABLE OF 8**:

$1 \times 8 = \underline{\quad}$	$4 \times 8 = \underline{\quad}$	$7 \times 8 = \underline{\quad}$	$10 \times 8 = \underline{\quad}$
$2 \times 8 = \underline{\quad}$	$5 \times 8 = \underline{\quad}$	$8 \times 8 = \underline{\quad}$	$11 \times 8 = \underline{\quad}$
$3 \times 8 = \underline{\quad}$	$6 \times 8 = \underline{\quad}$	$9 \times 8 = \underline{\quad}$	$12 \times 8 = \underline{\quad}$

Drill. Don't write answers down. Go through the problems until you master them.

1. Count by eights.

0, 8, , , , , , , , , , ,

96, , , , , , , , , , , , 0

2. Multiply.

8×8	3×8	8×4	8×5	8×8	11×8
2×8	8×6	8×12	7×8	8×3	5×8
4×8	12×8	8×11	8×9	9×8	7×8

3. Fill in the missing factors.

$\square \times 8 = 80$	$\square \times 8 = 32$	$\square \times 8 = 24$	$\square \times 8 = 72$
$\square \times 8 = 64$	$\square \times 8 = 80$	$\square \times 8 = 88$	$\square \times 8 = 40$
$\square \times 8 = 16$	$\square \times 8 = 56$	$\square \times 8 = 48$	$\square \times 8 = 8$
