

Thousands

th	h	t	o
7	2	8	4

7,284 has
7 thousands, 2 hundreds,
8 tens, and 4 ones.

Look at the pictures. How many...

- ones go to a ten? _____
- tens go to a hundred? _____
- hundreds go to a thousand? _____

That is why our way of writing numbers is called the *base ten* system.

Writing the number 5,608 in *expanded form* means we write out the number **as a sum** of whole thousands, whole hundreds, whole tens, and ones. You see all of it right from the number:

- It has 5 thousands = 5,000.
- It has 6 hundreds = 600
- It has 0 tens = 0.
- It has 8 ones = 8.

Now write it as a sum: $5,608 = 5,000 + 600 + 0 + 8$

1. Write the numbers in expanded form.

- a. $8,325 = 8000 + 300 + 20 + 5$
 c. $4,039 =$
 e. $2,090 =$

- b. $4,935 =$
 d. $3,002$
 f. $9,405$

2. Write in normal form.

- a. $4000 + 500 + 90 + 3$
 c. $3000 + 200$
 e. $1000 + 80 + 7$
 g. 6 hundred 4 thousand
 i. 3 ones 7 thousand 2 hundred
 k. fifty, 7 thousand
 m. 9, sixty, 4 thousand

- b. $2000 + 90$
 d. $8000 + 5$
 f. $5000 + 600 + 9$
 h. 8 tens 4 thousand
 j. 4 hundred 5 ones 1 thousand
 l. 4 thousand, 5
 n. 8 hundred, 3 thousand, 9
