

# Counting Change

When you buy an item, you might not have the exact coins and notes for the amount it costs. However, you can pay with a larger note, and get back some change.

To give change, or to check the change you are given, count up from *the price* of the item until you reach the amount the the customer gave.

 \$0.35 The customer gave \$1	Count up from the price →	 \$0.40	 \$0.60	 \$0.80	 \$1.00	The change is these coins. The change is 65 cents.
--	---------------------------------	---	---	--	---	---

 \$0.70 The customer gave \$1	Count up from the price →	 \$0.80	 \$0.90	 \$1.00	The change is these coins. The change is 30 cents.
--	---------------------------------	---	---	--	---

1. Draw the coins for the change.

 <b>a.</b> \$0.75 Customer gave \$1	Change: _____
--	---------------

 <b>b.</b> \$0.65 Customer gave \$1	Change: _____
--	---------------

 <b>c.</b> \$0.45 Customer gave \$1	Change: _____
--	---------------

 <b>d.</b> \$0.55 Customer gave \$1	Change: _____
--	---------------
