

## Counting Change

When you buy an item, you might not have the exact coins and banknotes for the amount it costs. You can then pay with a bigger banknote, and get back some change.

To give change, or to check the change you are given, count up from *the price* of the item until you reach the amount the customer gives.

|   |                                       |   |   |
|---|---------------------------------------|---|---|
|  R2,75<br>Customer gives R5  | Count up<br>from R2,75<br>until R5 →  |     | The change is<br>these coins.<br>The change is R2,25. |
|  R7,30<br>Customer gives R10 | Count up<br>from R7,30<br>until R10 → |     | The change is<br>these coins.<br>The change is R2,70. |

1. Count up to find the change. Draw the coins for the change.

|   |                               |               |
|---|-------------------------------|---------------|
| <b>a.</b>  R9,30<br>You give R10 | Count up from R9,30 until R10 | Change: _____ |
| <b>b.</b>  R7,25<br>You give R10 | Count up from R7,25 until R10 | Change: _____ |
| <b>c.</b>  R8,80<br>You give R10 | Count up from R8,80 until R10 | Change: _____ |
| <b>d.</b>  R3,40<br>You give R10 | Count up from R3,40 until R10 | Change: _____ |
