

# Mental Math and Money Problems

You can add money amounts in your mind, as well.

Add the pounds and the pence separately.

$$£1.\underline{20} + £1.\underline{50}$$

$$= £2.\underline{70}$$

$$£0.\underline{14} + £1.\underline{20}$$

$$= £1.\underline{34}$$

If you have more than 100p, then those make a pound.

$$£0.70 + £0.70 \\ = 140p = £1.40$$

$$£0.99 + £0.06 \\ = 105p = £1.05$$

1. Work out the total cost of buying the things listed. Add mentally if you can.

<div>  <p>£3.10</p> </div>			<div>  <p>£1.00</p> </div>			<div>  <p>£1.50</p> </div>			<div>  <p>£0.80</p> </div>			<div>  <p>£0.50</p> </div>		
<div>  <p>£1.90</p> </div>			<div>  <p>£0.55</p> </div>			<div>  <p>£2.20</p> </div>			<div>  <p>£20</p> </div>			<div>  <p>£35</p> </div>		
a. scissors and pencils			b. pen and glue			c. crayons, glue, and pencils								
d. a rubber and calculator			e. microscope and scissors			f. book bag, pen, and crayons								
g. stapler and glue			h. glue and a rubber			i. scissors and stapler								
j. pen, pencil, and crayons			k. calculator, pen, and microscope			l. scissors and a rubber
