

Counting Change

When you buy an item, you might not have the exact coins and banknotes for the amount it costs. You can then pay with a bigger banknote, and get back some change.

To give change, or to check the change you are given, count up from *the price* of the item until you reach the amount the customer gives.

 R2,75 Customer gives R5	Count up from R2,75 until R5 →	 R2,80 R3,00 R4,00 R5,00	The change is these coins. The change is R2,25.
 R7,30 Customer gives R10	Count up from R7,30 until R10 →	 R7,50 R8,00 R10,00	The change is these coins. The change is R2,70.

1. Count up to find the change. Draw the coins for the change.

a.  R9,30 You give R10	Count up from R9,30 until R10	Change: _____
b.  R7,25 You give R10	Count up from R7,25 until R10	Change: _____
c.  R8,80 You give R10	Count up from R8,80 until R10	Change: _____
d.  R3,40 You give R10	Count up from R3,40 until R10	Change: _____
